AMBEV REPORTS 2011 FIRST QUARTER RESULTS UNDER IFRS

São Paulo, May 4, 2011 – Companhia de Bebidas das Américas – Ambev [BOVESPA: AMBV4, AMBV3; and NYSE: ABV, ABVc] announces today its results for the 2011 first quarter (Q1 2011). The following financial and operating information, unless otherwise indicated, is presented in nominal *Reais* and prepared in accordance with International Financial and Reporting Standards (IFRS), and should be read in conjunction with our quarterly financial information for the three months period ended March 31, 2011 filed with the CVM and submitted to the SEC.

This press release segregates the impact of organic changes from those arising from changes in scope or currency translation. Scope changes represent the impact of acquisitions and divestitures other than those eliminated from the base, the start up or termination of activities or the transfer of activities between segments, curtailment gains and losses and year over year changes in accounting estimates and other assumptions that management does not consider as part of the underlying performance of the business. Unless stated, percentage changes in this press release are both organic and normalized in nature. Whenever used in this document, the term "normalized" refers to performance measures (EBITDA, EBIT, Profit, EPS) before special items. Special items are either income or expenses which do not occur regularly as part of the normal activities of the Company. They are presented separately because they are important for the understanding of the underlying sustainable performance of the Company due to their size or nature. Normalized measures are additional measures used by management and should not replace the measures determined in accordance with IFRS as indicators of the Company's performance. Comparisons, unless otherwise stated, refer to the first quarter of 2010 (Q1 2010). Values in this release may not add up due to rounding.

OPERATING AND FINANCIAL HIGHLIGHTS

Top line performance: Net sales grew 10.5% driven mainly by price increases across our regions, with Net Revenue/hl growing 10.4% in the period. Organic volume growth of 0.2% in the period due to a 3.7% growth in Latin America South and a 13.2% in HILA-Ex offset by a -1.1% volume contraction in Brazil and a -6.5% contraction in Canada.

Cost of Goods Sold (COGS) and Selling, General & Administrative (SG&A) expenses: COGS/hl increased by 8.8% mainly due to raw materials costs as well as packaging costs, which were partly offset in the quarter by gains in currency hedges and productivity initiatives. SG&A (excl. depreciation & amortization) increased by 10.5% mainly as a result of general inflation and higher logistic costs in Brazil due to higher direct distribution weight and transfer of products between plants in advance of the footprint improvement expected from our capex plans.

EBITDA, Operating Cash generation and Profit: Our Normalized EBITDA reached R\$3,098.5 million in Q1 2011, an organic growth of +12.4%, while margin expanded 80 bps in the period to 47.2%. Cash generated from operations in Q1 was R\$1,983.9 million, a 17.9% decrease as compared to same 2010 period. Our Normalized Profit was R\$2,089.2 million (+21.7%), while our Normalized Earnings per share (EPS) grew 20.9%.

Payout and Financial discipline: We paid approximately R\$1.8 billion in dividends on March 22nd.

SUMMARY

During the first quarter 2011 our normalized consolidated EBITDA totaled R\$3,098.5 million, a 12.4% organic increase. Consolidated volumes increased by 0.2% in Q1 2011 as a result of volume growth for LAS and HILA-ex offset by industry driven volume contraction in Canada and Brazil CSD.

In Brazil, the strong industry growth from previous quarters has decelerated mainly due to a tougher comparison against Q1 2010 and to heavy rains mainly in January, with our beer volume increasing 0.2% in the quarter. CSD & Nanc industry decline led to a volume contraction of -5.0% for our business with flat market share performance in the quarter versus last year. Our Normalized EBITDA in Brazil increased by 11.4% in the quarter with margins expanding 60 bps.

"Our results in Brazil this quarter were positive despite the softer industry. We were able to increase our EBITDA margin as a result of our double digit top line growth and productivity initiatives", says João Castro Neves, Chief Executive Officer (CEO) for Ambev.

Regarding Beer Brazil top line, we saw as usual a market share decline following price increases at the end of last year since the gap to our competitors widened, particularly for disposables, where we increased prices above the historical average. After excise increase in April, a further adjustment has been made to offset this tax increase. We do believe this is the right pricing strategy to preserve a profitable and sustainable long term growth.

HILA-ex reported a volume increase of 13.2% and a negative EBITDA of R\$14.3 million in the quarter. João Castro Neves comments: "In HILA-ex we delivered strong volume increase as a result of better industry and market share gains in most countries".

Latin America South contributed with Normalized EBITDA of R\$551.9 million in the period with both beer and soft drink businesses delivering volume and EBITDA growth. "We reached a 20.6% EBITDA growth in the quarter based on a solid performance of our operations in spite of increasing pressures in raw materials and labor costs. The overall beer market is recovering while we achieved market share gains throughout the region", says Bernardo Paiva, CEO for Latin America South.

In Canada, Labatt delivered Normalized EBITDA of R\$224.4 million in the quarter, registering an organic increase of 3.7%. "We benefited from the cost measures we took last year and saw a 290 bps organic EBITDA margin increase. We also achieved a stable market share for the 4th quarter in a row and I believe that the share/profitability equation has improved in Canada. Looking forward we have plans to build off this base", says Bary Benun, Labatt's President.

"Overall, we are pleased with our consolidated performance in 1Q11, in which we registered double-digit EBITDA growth and EBITDA margin expansion in almost all of our operations" says João Castro Neves, CEO for Ambev.

Looking towards the rest of the year, Beer Brazil EBITDA margin should improve further as we benefit from favorable comps versus 2010 as a consequence of the negative impact of imported cans on Beer COGS last year, as well as of the extra logistic costs we incurred in 2010 due to the capacity constrains in the North and Northeast, which will reduce mainly in the 2nd semester this year as we implement our capex plans in the Region.

On the other hand, Brazil CSD margins had an important expansion in Q1 benefiting from a COGS/hl growth below inflation, driven primarily by more favorable currency hedges. However, for the balance of the year higher resin costs should lead to a full year high single digit CSD COGS/hl growth, while our full year total Brazil COGS/hl should remain in line with inflation, as we indicated in the beginning of this year.

We remain focused on a top line growth in Beer Brazil this year mainly driven by a net revenue per hl increase. Although volumes have started off soft in part because of poor weather conditions, this should not be the case for the rest of the year. Volumes for 2011 are expected to grow at a lower rate than what we saw in the last 2 years but should benefit overtime from the acceleration of disposable income growth particularly as of 2012 given the significant real increase in minimum wages forecasted for such year (around 7.5%).

Therefore, despite the short term volume softness and the expected impact of excise taxes increase that just hit our industry, so far we have not revised down our capex plans for 2011 in Brazil, which may add up to R\$ 2.5 billion, as we do see relevant growth opportunities in the beer industry moving forward and plan to invest adequately to fully seize them over the medium and long term.

Ambev Brazil

Our Brazil business unit delivered normalized EBITDA of R\$2,336.5 million in the quarter, representing an organic growth of 11.4% and a margin expansion of 60 bps to 50.8%.

Our performance in Brazil for the first quarter 2011 showed margin expansion in both Beer and Soft Drinks businesses despite weak volumes driven by heavy rains in January, with revenue growth coming mainly from prices increase while COGS increase was primarily due to higher raw material and packaging costs. SG&A, excluding depreciation and amortization, was impacted mainly by higher logistic costs.

Normalized EBITDA margin	51.6%				51.8%	20 bps	20 bps

Our beer volumes in Brazil grew 0.2% during Q1 2011 driven by decelerated industry growth, heavy rains in January, and by a lower average market share in the quarter (-100 bps according to our estimates) as we opened a price gap to our competitors following our 4Q10 price increases.

Net Revenue/hl increased 11.7% in Q1 2011 mainly due to our price increases, positive impact from higher direct distribution weight and flat federal tax versus 1Q10.

COGS/hl increased by 12.4% in the quarter due to higher raw materials and packaging costs as a result of imported cans and higher aluminum hedges, partially offset by currency gains.

SG&A, excluding depreciation and amortization, increased by 11.8% in the period due to general inflation and higher logistic costs, mainly as a result of higher direct distribution weight, increased product transfers within Brazil and due to the change in sales mix towards the Northeast of the country.

Beer Brazil normalized EBITDA increased by 12.3% reaching R\$2,018.6 million in the quarter.

Normalized EBITDA	300.4	-		17.4	317.9	5.8%	5.8%
Normalized EBITDA margin	43.3%				45.4%	210 bps	210 bps

Our CSD & Nanc Brazil business posted organic volume contraction of -5.0% as a result of negative industry growth and stable market share.

Net Revenues/hl grew 6.2% organically in the period driven by price increases in line with inflation.

COGS/hl increased by 0.2% due to higher sugar and PET resin prices partially offset by currency gains.

SG&A, excluding depreciation and amortization, increased 8.5% mainly as a result of higher logistics costs and phasing of sales and marketing investments.

CSD & Nanc Brazil normalized EBITDA increased by 5.8% and reached R\$317.9 million in the quarter.

HILA-ex volumes increased by 13.2% in Q1 2011 as a result of industry growth and market share gains in most countries in which we operate.

Net Revenue per hectoliter was up 5.3% due to some price increases in line with inflation for the region.

COGS/hl increased by 10.8% in the quarter mainly as a result of raw material costs increase.

SG&A expenses, excluding depreciation and amortization, increased 6.8% in the quarter due to higher volumes and general inflation.

HILA's normalized EBITDA decreased R\$1.0 million organically in the quarter.

Latin America South (LAS)

Our LAS operation improved its beer volume performance as a result of industry growth in most of our operations and market share gains throughout the region. We are also achieving better results in our soft-drinks business in spite of increasing cost pressures and a still soft market growth. We have achieved an organic EBITDA growth of 20.6% and a consolidated EBITDA of R\$551.9 million in the quarter, while our EBITDA margin reached 47.6%.

Beer volumes grew organically 4.4% in the quarter, reflecting a better performance in most of our markets. We were able to either maintain or grow our market shares in most of the operations with strong communication and support to our mainstream and premium brands.

Net Revenue/hl grew 16.4% in the quarter driven by price increases in line with inflation for the region. In addition, Stella Artois and our local premium brands continued to show a solid performance, contributing to our average sales price growth.

COGS/hl increased 13.2% in the period, which is below the average level of inflation in the region. We achieved higher productivity in our breweries and favorable hedges, compensating the continuous pressure of increasing raw materials and labor costs.

SG&A, excluding depreciation and amortization, increased 26.4% in the quarter driven by general inflation, higher personnel-related expenses and a strong marketing support to our brands.

LAS Beer EBITDA increased 21.4% in the quarter totaling R\$492.7 million.

CSD & Nanc volumes in LAS increased 2.5% in the period driven by a soft market recovery and market share gains.

Net Revenues/hl registered an organic growth of 24.3% in the quarter, as a result of price increases in line with inflation.

COGS/hl increased by 27.9% in the quarter mainly as a result of higher sugar, pet, juices and labor costs as well as general inflation.

SG&A expenses, excluding depreciation and amortization, increased 31.8%, mostly as a result of personnel and transportation costs, general inflation and investments behind our brands.

LAS CSD & Nanc Normalized EBITDA increased organically 14.5% in the quarter totaling R\$59.2 million.

Normalized EBITDA margin	30.2%				32.8%	260 bps	290 bps

First quarter volumes decreased by -6.5%, impacted by a -5.8% drop in beer industry volumes and a 50 bps share loss versus 1Q10. However, Labatt's total market share showed sequential improvement versus 4Q10 by +30 bps.

Net Revenue/hl grew 0.9% in the quarter compared to the same period last year while COGS/hl decreased by 8.3%. The COGS/hl decline was due to continued cycling of lower commodity hedges and the benefit of closing our Hamilton brewery in Q2 2010.

SG&A expenses, excluding depreciation and amortization, decreased by 4.2% in Q1 2011 as a result of lower volumes and fixed costs which more than offset the increase in sales and marketing.

Normalized EBITDA increased by 3.7% in the quarter totaling R\$224.4 million and resulting in an EBITDA margin expansion of 290 bps.

Other operating income/(expenses)

Other operating income increased R\$41.4MM in the quarter basically as a result of higher government grants in Brazil.

Other operating income/(expenses)	1Q10	1Q11
R\$ million		
Government grants	83.1	99.1
Tax recovery	6.4	-
(Additions to)/reversals of provisions	(8.0)	(2.8)
Net gain on disposal of property, plant and equipment and intangible assets	(1.6)	2.1
Net other operating income	14.0	36.9
	93.9	135.3

Special items

Special items totaled R\$0.5 million in Q1 2011 compared to R\$66.4 million net losses in Q1 2010. The 2010 result is mainly explained by the Labatt Hamilton brewery closure expenses and by restructuring costs.

Special items	1Q10	1Q11
R\$ million		
Restructuring	(17.6)	(0.5)
Labatt Hamilton Brewery closure expenses	(46.1)	-
Others	(2.8)	-
	(66.4)	(0.5)

Net finance results

Ambev's net finance result improved by R\$141.1 million in Q1 2011 mainly because of: (i) lower net interest expenses, and (ii) gains with respect to derivative instruments which relate to the results of our ongoing hedging policy.

Net finance results <i>R\$ million</i>	1Q10	1Q11
Interest income	80.4	111.1
Interest expenses	(144.5)	(159.0)
Gains/(losses) on derivative instruments	(42.6)	42.9
Gains/(losses) on non-derivative instruments	(47.3)	0.5
Taxes on financial transactions	(10.8)	(12.3)
Other financial income/(expenses), net	(21.8)	(28.7)
Net finance results	(186.6)	(45.5)

The Company's total debt decreased from R\$6,770.4 million in December 2010 to R\$6,608.3 million in March 2011.

Debt breakdown	December 2010			March 2011		
	Current	Non-current	Total	Current	Non-current	Total

Net debt			(207.1)			916.6

Provision for income tax & social contribution

Our weighted nominal tax rate was 32.9% in the period compared to 33.2% in Q1 2010, while the effective tax rate in Q1 2011 was 22.2% compared to Q1 2010 rate of 25.4%. The table below shows the reconciliation for income tax and social contribution provision.

Income tax and social contribution <i>R\$ million</i>	1Q10	1Q11
Profit before tax	2,212.5	2,707.9
Adjustment on taxable basis		
Non-taxable net financial and other income	(87.3)	(119.4)
Government grants (VAT)	(83.1)	(99.1)
Share of results of associates	(0.0)	(0.1)
Hedging results	8.2	(2.7)
Expenses not deductible for tax purposes	27.0	77.1
	2,077.2	2,563.7
Aggregated weighted nominal tax rate	33.2%	32.9%
Taxes – nominal rate	(688.8)	(843.4)
Adjustment on tax expense		
Incentives related to income taxes	43.1	77.6
Tax benefit - interest on shareholders' equity	109.7	126.6
Tax benefit - amortization on tax books	32.2	30.2
Withholding tax and other income	(25.9)	(27.7)
Non-deductible losses - foreign operations	(16.9)	(8.8)
Income tax provision reversal	(7.6)	(0.0)
Other tax adjustments	(7.3)	43.7
Income tax and social contribution expense	(561.6)	(601.9)
Effective tax rate	25.4%	22.2%

Non-controlling interest

Non-controlling interest in subsidiaries corresponded to a total expense of R\$17.4 million in Q1 2011 compared to an expense of R\$0.7 million in Q1 2010.

Profit

Ambev posted a profit of R\$2,088.7 million in the Q1 2011 compared to R\$1,650.2 million during the same period last year, an increase of 26.6%. Excluding special items (mainly Labatt Hamilton Brewery closure expenses), our net profit increased by 21.7% to R\$2,089.2 million due to higher EBITDA, better net finance results and lower effective tax rate.

Reconciliation between normalized EBITDA and profit

Both Normalized EBITDA and EBIT are measures used by Ambev's management to measure the Company's performance.

Normalized EBITDA is calculated excluding from Profit the following effects: (i) Non-controlling interest, (ii) Income Tax expense, (iii) Share of results of associates, (iv) Net Finance Results, (v) Special items, and (vi) Depreciation & Amortization.

Normalized EBITDA and EBIT are not accounting measures under accounting practices in Brazil, IFRS or the United States of America (US GAAP) and should not be considered as an alternative to Profit as a measure of operational performance or an alternative to Cash Flow as a measure of liquidity. Normalized EBITDA and EBIT do not have a standard calculation method and Ambev's definition of Normalized EBITDA and EBIT may not be comparable to that of other companies.

Reconciliation - net income to EBITDA	1Q10	1Q11
Profit - Ambev holders	1,650.2	2,088.7
Non-controlling interest	0.7	17.4
Income tax expense	561.6	601.9
